

Colorless Industrial NaCl Sodium Chloride Salt Powder CAS

Our Product Introduction

for more products please visit us on intermediateschemicals.com

Basic Information

- Place of Origin: China
- Brand Name: KHD
- Minimum Order Quantity: 1kg
- Price: Please consult customer service
- Packaging Details: 1kg/bag, 25kg/drum
- Delivery Time: 2-5 days
- Payment Terms: T/T, Western Union, Bitcoin
- Supply Ability: 10000kg/Day

Product Specification

- Appearance: Crystal Powder
- Color: White
- Brand Name: Kaihuida
- Purity: $\geq 99\%$
- Specifications: 1kg/bag, 25kg/Drum
- EINECS: 231-598-3
- Highlight: NaCl sodium chloride salt, sodium chloride salt, sodium chloride powder

Product Description**Colorless Crystal Sodium Chloride / NaCl / Industrial Salt CAS****Product Details**

Sodium chloride is the main component of table salt and stone salt. It is an ionic compound, colorless and transparent cubic crystal. Sodium oxide exists in large quantities in sea water and natural salt lakes.

It can be used to produce chlorine gas, hydrogen, hydrochloric acid, sodium hydroxide, chlorate, hypochlorite, bleaching powder and sodium metal, etc.

It is an important chemical raw material. Chemicalbook can be used for food flavoring and salting fish meat and vegetables, as well as for salting out soap and tanning leather.

The highly refined sodium chloride can be used to make physiological salt solution for clinical treatment and physiological experiments, such as sodium loss, water loss, blood loss and so on.

Sodium chloride can be prepared by concentrating crystalline seawater or natural salt lake or well water.

CAS No.	
EINECS NO.	231-598-3
Molecular formula	NaCl
MW	58.44277
Appearance(25°C)	White crystal
Purity(%)	>=99%
Melting Point	801 °C(lit.)
Boiling Point	100 °C750 mm Hg
Flashing Point	1413°C
Density	1.199 g/mL at 20 °C
PH Value	5.5-6.5

Application

1. Facilitates the cross-coupling of organostannanes with iodides without using palladium.
2. Used in biochemistry and molecular biology applications; a component of PBS and SSC buffers
3. Sodium chloride Commonly known as table salt, sodium chloride is found as the mineral halite and in brines and seawater. Sodium chloride is soluble in water but less so in alcohol. It was the first halide to be combined with silver nitrates and was also used by L. J. M. Daguerre and W. H. F. Talbot as a stabilizer before fixing with hypo was adopted.
4. sodium chloride (table salt) is used as a preservative, astringent, and anti-septic to treat inflamed lesions. It can also be used to mask odor, reduce product density, and control viscosity. Diluted solutions are not considered irritating.

Company Profile

Jiangsu Kaihuida New Material Technology Co., Ltd. is a scientific and technological company engaged in the development, production and operation of chemical products.

Our main products: Pharmaceutical intermediates, Food additive, Flavor, Organic intermediate, Cosmetic materials, Chemical Raw materials, Daily chemicals, Dye intermediate, Disinfectant, and other products.

Our main sales market: the United States, Canada, Mexico, Australia, the United Kingdom, France, Germany, Italy, South Korea, the Netherlands, Sweden, Spain, Switzerland, Colombia and other countries and regions.

Packing And Delivery

Packing

Liquid, Iron Drum or Plastic Drum

Express

Payment

FAQ

Q1: May I get one sample before placing order?

Re: Yes, Sample are available. For normal products, samples are for free and you just need to bear the freight; For those high value products, you just need to freight and certain product cost. When we both cooperate for some times or when you are our VIP customer, free sample will be offered when you need.

Q2: Which payment is available for your company?

Re: T/T, WESTERN Union, Bitcoin etc. You can choose the one which is convenient for you.

Q3: How and when can I get my goods after payment?

Re: For small quantity products, they will be delivered to you by international courier(DHL, FedEx, TNT etc.) or by air. Usually it will cost 3-10days that you can get the goods after delivery. For large quantity products, shipping by sea is worthwhile. It will cost 15 to 30 days to come to your destination port, which depends on where the port is.

Q4: Is there any possible to use my appointed label or package?

Re: Yes. If needed, we'd like to use label or package according to your requirement.

Q5: How can you guarantee the goods you offer is qualified?

Re: We always believe honesty and responsibility are basis of one company, so whatever products we provide for you all are qualified. We will have goods tested and provide COA before delivery for sure.
