

High Purity Amino Acid D-Tryptophan Powder CAS 153-94-6

Our Product Introduction

for more products please visit us on intermediateschemicals.com

Basic Information

- Place of Origin: China
- Brand Name: KHD
- Model Number: 153-94-6
- Minimum Order Quantity: 1kg
- Price: Please consult customer service
- Packaging Details: 1kg/bag, 25kg/drum
- Delivery Time: 2-5 days
- Payment Terms: T/T, Western Union, Bitcoin
- Supply Ability: 10000kg/Day

Product Specification

- Appearance: Powder
- CAS: 153-94-6
- Color: White Powder
- Brand Name: Kaihuida
- Purity: $\geq 99\%$
- Specifications: 1kg/bag, 25kg/Drum
- Highlight: **High Purity D-Tryptophan Powder , Amino Acid D-Tryptophan Powder**

Product Description**High Purity Amino Acid D (+) -Tryptophan D-Tryptophan CAS 153-94-6****Product Details**

Product Name	Supply Amino Acid D (+) -Tryptophan D-Tryptophan CAS 153-94-6
Appearance	White powder
Molecular formula	C ₁₁ H ₁₂ N ₂ O ₂
Molecular weight	204.23
Keywords	D-Tryptophan, Material D-Tryptophan; Pure D-Tryptophan
Shelf Life	24 months when properly stored
Storage	Keep in a cool, dry, dark location

What is D-Tryptophan?

D-tryptophan (Full name D (+)-Tryptophan) is a white to pale yellow or white crystalline powder at room temperature, odorless or slight odor, slightly sweet taste. Solubility in water is 1.14 g (25 °C), soluble in dilute acid and alkali, stable in alkali, decomposed in strong acid, slightly soluble in ethanol, not soluble, It plays an important role for human and animal growth and development, metabolism, known as the second essential acids. They are almost identical with L-type and physical and chemical properties, and only the optical activity is opposite. But their distribution, function and coenzyme have diversity. Its melting point is very high, generally above 200 degrees. It can dissolve in water, and in the near UV region it has the ability to absorb light.

Function of D-Tryptophan

1. Keep the balance of amino acids in the forage and stimulate the growth of the animals;
2. Improve the meat quality;
3. Increase the nutritive value of forage raw materials which have low amino acid digestibility;
4. Apply to the production low-protein forage;
5. Cut down the cost of raw materials for forage;
6. Decrease the nitrogen content in the excrement and urine of animals so that the release is slowed and the concentration is kept low in animal shed.

Application

1. Used in biochemical studies, and in medicine as a sedative.
2. Used as Amino acids. Often combined with iron, vitamins and others, and can improve depression when combined with VB6, rough skin disease of prevention and cure;
3. Used as a sedative for insomnia with L-dopa for the treatment of Parkinson's disease. The carcinogenicity of experimental animal; nausea, anorexia, wheezing and other adverse reactions to sleep. Avoid combined with monoamine oxidase inhibitors.

Hot-sale Products

Feed Additive	
Product Name	CAS No.
L-Isoleucine	73-32-5
D(+)-Tryptophan	153-94-6
DL-Methionine	59-51-8
Calciumphosphate monobasic	7758-23-8
Sodium bicarbonate	144-55-8

Company Profile

Jiangsu Kaihuida New Material Technology CO.,Ltd has established mor than 12 years.

We guarantee that 100% of the packages you order pass the customs of the United States, Mexico, Canada, the 27 EU countries, the United Kingdom, Australia, and Southeast Asian countries. We have a strong customs clearance agency in these countries, and our customs clearance company will clear your parcel without any customs issues On-site service DDP service. In order to ensure 100% receipt of your package, if there is any customs issue, we promise to reissue it again free of charge. Let you experience our strong transportation and customs clearance capabilities.

We guarantee that 100% of the packages you order pass the customs of the United States, Mexico, Canada, the 27 EU countries, the United Kingdom, Australia, and Southeast Asian countries. We have a strong customs clearance agency in these countries, and our customs clearance company will clear your parcel without any customs issues, sometimes even 1000 kg. On-site service DDP service. In order to ensure 100% receipt of your package, if there is any customs issue, we promise to reissue it again free of charge. Let you experience our strong transportation and customs clearance capabilities.

FAQ

Q1. Can I have a sample order for your products?

A: Yes, we welcome sample order to test and check quality. Mixed samples are acceptable.

Q2. What about the lead time?

A: Sample needs 3-5 days, mass production time needs 1-2 weeks for order quantity more than.

Q3. Do you have any MOQ limit for order?

A: Low MOQ, 10-100g for sample checking is available.

Q4. How do you ship the goods and how long does it take to arrive?

A: We usually ship by DHL, UPS, FedEx or TNT. It usually takes 3-5 days to arrive. Airline and sea shipping also optional.

Q5. How to proceed an order for your products?

A: Firstly let us know your requirements or application.

Secondly We quote according to your requirements or our suggestions.

Thirdly customer confirms the samples and places deposit for normal order.

Fourthly We arrange the production.

Q6. Is it OK to print my logo on package?

A: Yes. Please inform us before our production and confirm the design firstly based on our sample.

Q7: Are you trading company or manufacturer?

A: We are chemical factory in China. So we can provide wholesale price.
