**Our Product Introduction** 

### Natural Silybum Marianum Extract Silibinin Powder CAS 22888-70-6

# **Product** Details

Silibinin is an antioxidant extracted from a plant called milk thistle. Silibinin can stabilize liver cell membranes, maintain the integrity of liver cells, prevent toxins from penetrating and damaging the liver, and accelerate the synthesis of DNA (deoxyribonucleic acid) in liver cells, preventing cirrhosis, fatty liver, cholangitis, Psoriasis and other diseases, and also has the inhibitory effect on the growth and differentiation of liver cancer, prostate cancer, breast cancer and cervical cancer cells. It is the most effective flavonoid found in the world for liver diseases.

### Function

1. Silibinin has obvious protective and stabilizing effects on liver cell membranes, can improve liver function, produce enzyme-lowering effects, and is less prone to enzyme rebound.

2. Silibinin can stabilize the liver cell membrane and maintain its integrity, promote the restoration of the ultrastructure of liver cells, promote the division and growth of normal liver cells, improve the ability of liver cells to synthesize RNA and protein, and improve the reticuloendothelial system. The ability to produce macrophages and enhance the activity of macrophages to accelerate the clearance of viruses.

3. Silibinin can promote fat transfer and antioxidant effects, prevent excessive oxidation and infiltration of fat, and reduce liver steatosis.

4. Silibinin can promote the metabolic function of the liver, enhance its detoxification effect, and reduce the damage of poisons to liver cells.

### Application

1. Silybin can be used in the pharmaceutical industry 2. Silybin can be used in the health care products industry
