

99% Purity Custom Peptides Pharmaceutical Agentsara-290 CAS 1208243-50-8 For Anti-Inflammatory

Our Product Introduction

for more products please visit us on intermediateschemicals.com

Basic Information

- Place of Origin: China
- Brand Name: KHD
- Model Number: 1208243-50-8
- Minimum Order Quantity: 5mg
- Price: Please consult customer service
- Packaging Details: 1kg/bag, 25kg/drum
- Delivery Time: 2-5 days
- Payment Terms: T/T, Western Union, Bitcoin
- Supply Ability: 10000kg/Day

Product Specification

- Color: White Powder
- Brand Name: Kaihuida
- Form: Powder
- Highlight: **Anti-Inflammatory Custom Peptides,
99% Purity Custom Peptides,
CAS 1208243-50-8 Custom Peptides**

Product Description

99% Purity Custom Peptides Pharmaceutical Agentsara-290 CAS 1208243-50-8 for Anti-Inflammatory

Product Details

Product name	ARA 290
Appearance	White powder
Purity	99%
Storage	Keep in a cool, dry, dark location in a tightly sealed container or cylinder.
Shelf Life	24 Months

Description

ARA-290 is a peptide that is derived from erythropoietin (EPO). EPO has been utilized for decades because of its ability to stimulate red blood cell production within bone marrow. It can also alter a patient's blood pressure, promote cell survival, and create a neuroprotective effect.

While ARA-290 does not stimulate red blood cell production, it does offer pain-relieving and neuroprotective effects. It also has the potential to stimulate wound repair in patients with chronic diabetes, but this property is still being researched.

ARA-290 is being studied as a potential treatment for systemic lupus erythematosus, as well.

Application&Function

The full scope of ARA-290's benefits is still being researched. However, it has the potential to decrease the user's inflammatory pathways through a process known as paracrine signaling. It has also been linked to reduced HbA1c and improved cholesterol numbers. Studies that have produced these results are still in the trial stages.

Perhaps the most appealing possibility for ARA-290 is that it may have the ability to reduce neuropathic symptoms and stimulate natural wound repair processes.

This peptide serves as an exciting treatment option for patients that are dealing with chronic neuropathic pain and diabetes-related ailments.
