

Cosmetic Peptide Acetyl Hexapeptide 8 CAS 616204-22-9 Hexapeptide 8 Argireline Beauty Peptides Argirelin

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: KHD
- Model Number: 616204-22-9
- Minimum Order Quantity: 1g
- Price: Please consult customer service
- Packaging Details: 1kg/bag, 25kg/drum
- Delivery Time: 2-5 days
- Payment Terms: T/T, Western Union, Bitcoin
- Supply Ability: 10000kg/Day

Product Specification

- Color: White Powder
- Brand Name: Kaihuida
- Form: Powder
- Highlight: **CAS 616204-22-9 Hexapeptide 8,
Cosmetic Peptide Acetyl Hexapeptide 8,
Beauty Peptides Argirelin**

Product Description**Cosmetic Peptide Acetyl Hexapeptide 8 CAS 616204-22-9 Hexapeptide 8 Argireline Beauty Peptides Argirelin****Product Details**

Product name	Acetyl Hexapeptide-8
Appearance	White powder
Purity	99%
Storage	Keep in a cool, dry, dark location in a tightly sealed container or cylinder.
Shelf Life	24 Months

Description

Acetyl hexapeptide 8, is an oligopeptide that mimics the N-terminal 6 amino acids of the SNAP-25 protein. Agurellin is one of the commonly used raw materials for high-end cosmetics. Its main effect is to reduce wrinkles caused by the contraction of facial expression muscles, and it has an ideal effect on removing wrinkles around the forehead or eyes.

Acetyl hexapeptide 8 participates in the competition for the site of SNAP-25 in the fusion vesicle complex, thereby affecting the formation of the vesicle fusion complex, resulting in the ineffective release of neurotransmitters from vesicles, weakening muscle contraction, and then relaxing muscles and soothing fine lines. The skin is clear and flawless, and it can also promote cell regeneration to restore softness and elasticity of the skin, so it is widely used in the preparation of cosmetics and health care products.

Application&Function

- 1.Acetyl tetrapeptide-8 stimulates collagen production for better ECM integrity leading to a better anchoring.
- 2.Acetyl tetrapeptide-8 combined with a red clover extract rich in Biochanin A., is based on the association and synergistic action of its two ingredients.
- 3.Acetyl tetrapeptide-8 combined with a red clover extract has a direct action on 5-a-reductase which modulates dihydrotestosterone (DHT) to help prevent hair miniaturization. It improves ECM proteins integrity in dermal papilla for a better hair anchoring and reduces damages caused by inflammation, providing fuller, thicker and healthier looking hair.
