

Health Care Supplement Nicotinamide Adenine Dinucleotide Raw Powder Nad+ CAS 53-84-9 Nad For Anti-Aging

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: KHD
- Model Number: 53-84-9
- Minimum Order Quantity: 1kg
- Price: Please consult customer service
- Packaging Details: 1kg/bag, 25kg/drum
- Delivery Time: 2-5 days
- Payment Terms: T/T, Western Union, Bitcoin
- Supply Ability: 10000kg/Day

Product Specification

- Color: White Powder
- Brand Name: Kaihuida
- Form: Powder
- Highlight: **CAS 53-84-9 Nad Raw Powder,
Anti-Aging Nad Raw Powder,
Health Care Supplement Nad Raw Powder**

Product Description

Health Care Supplement Nicotinamide Adenine Dinucleotide Raw Powder Nad+ CAS 53-84-9 Nad for Anti-Aging

Product Details

Product name	Nicotinamide Adenine Dinucleotide/NAD
CAS no.	53-84-9
Molecular Formula	C ₂₁ H ₂₇ N ₇ O ₁₄ P ₂
Molecular Weight	663.43

Description

Nicotinamide adenine dinucleotide (NAD) is a coenzyme central to metabolism.[3] Found in all living cells, NAD is called a dinucleotide because it consists of two nucleotides joined through their phosphate groups. One nucleotide contains an adenine nucleobase and the other nicotinamide. NAD exists in two forms: an oxidized and reduced form, abbreviated as NAD⁺ and NADH (H for hydrogen), respectively.

NAD⁺ stands for nicotinamide adenine dinucleotide. From single-cell organisms like bacteria to sophisticated multicellular ones like primates, NAD⁺ is one of the most abundant and crucial molecules. Basically, without NAD⁺, we would be on the fast track to death. The molecule is a linchpin to the function of the generators of cells - mitochondria. NAD⁺ not only helps convert food to energy but also plays a crucial role in maintaining DNA integrity and ensures proper cell function to protect our bodies from aging and disease.

Application&Function

1.Nicotinamide adenine dinucleotide (NAD) for Skincare: Being the highest coenzyme in metabolic process and the ability to repair damaged cells make NAD the most potent antioxidant. It helps in reducing the signs of aging and works as an essential element in skin care and provides energy to the aged and dead cells. NAD bears top position in the category of anti-aging elements. It repairs the damaged cells and increases their lifespan.

2.NAD in Cellular Respiration: NAD is an important enzyme in generating (Adenosine triphosphate) ATP which is the most important part of cellular respiration. Every cell in the body needs thousands of units of ATP and Nicotinamide adenine dinucleotide(NAD) helps in attaining this resource for the cells.

FAQ

Q1. Can I have a sample order for your products?

A: Yes, we welcome sample order to test and check quality. Mixed samples are acceptable.

Q2. What about the lead time?

A: Sample needs 3-5 days, mass production time needs 1-2 weeks for order quantity more than

Q3. Do you have any MOQ limit for order?

A: Low MOQ, 10-100g for sample checking is available

Q4. How do you ship the goods and how long does it take to arrive?

A: We usually ship by DHL, UPS, FedEx or TNT. It usually takes 3-5 days to arrive. Airline and sea shipping also optional.

Q5. How to proceed an order for your products?

A: Firstly let us know your requirements or application.

Secondly We quote according to your requirements or our suggestions.

Thirdly customer confirms the samples and places deposit for normal order.

Fourthly We arrange the production.

Q6. Is it OK to print my logo on package?

A: Yes. Please inform us before our production and confirm the design firstly based on our sample.

Q7: Are you trading company or manufacturer?

A: We are chemical factory in China. So we can provide wholesale price.
